

The national

Pot to Product scheme™

Turning old plant pots into new products.

A great way of offering a much needed plant pot recycling service to your customers.

Closed loop recycling

We will collect your customers pots and turn them back into new products that you can then offer at the centre.

For more details call 01872 575000 or simon@ashortwalk.com

It is estimated that there are over 5 million redundant plant pots and seed trays in the UK.* These can all be used to make new products..... so go home now and release those pots!

Customers pots are collected via a national 'pot to product' scheme, then melted and reformed into new useful products then re-sold at the same centre true 'closed loop' recycling.

An unwanted plant pot one week, a bird feeder the next!
